EDUCATION

Bachelor Of Engineering

Sapthagiri College Of Engineering

08/2019 - 05/2023

CGPA 8.9

Courses

- Electronics And Communication

Intermediate

D.A.V Public School

08/2017 - 06/2018

Percentage 61%

Courses

- Major In Science

Matriculation

Paramount Acedemy

2016

percentage 98%

WORK EXPERIENCE

.net Core Backend Developer Intern

Talentpace Private Limited

02/2023 - 06/2023

Achievements/Tasks

- During my internship, I worked as a .net developer on projects including IOCL, HPCL, and Synfra. I worked with technologies such as React, JQuery, SQL Server, C#, Web API, and .net core.

SKILLS

.net core

MVC

c#

Sql

HTML

CSS

JavaScript

JQuery

Web Api

React

Java

OOPs

PROJECTS

Plant management system using .net (03/2023 - 03/2023)

- In this project user can manage it's plant record in SQL server it has the functionality like login , register user, OTP based forgot password, session timeout, update , delete, url encryption, Ajax validation, server & Clint side validation. Each record shows in jQgrid. Application is based on **.net, c#, MVC, SQL, Frontend**

A JavaScript Weather app using OpenWeather API (03/2023 - 03/2023)

- In this project, user can search the name of city and get the weather info like temperature , Humidity, Wind speed with beautiful icon also if user search city which does not exist , it shows a error message. also every time user open the app it shows weather info of random city before he search for any city, here we fetch the data from API and display. The skills we used here is **JavaScript**

Netflix clone using javaScript and TMBD API (02/2023 - 02/2023)

- i used THE MOVIE DATABASE API to built a clone for java script , divided the movie based genera to place it into the app . The skills we used here is **javascript, jQuery**

An Online Movie/Series App. (10/2022 - 11/2022)

- In this Application, users can search for the movie and series they want and watch them online. This web application is based on **HTML/CSS/JAVASCRIPT/JSON**
